

# TABLE OF CONTENTS

|                             |      |
|-----------------------------|------|
| Preface . . . . .           | vii  |
| Acknowledgements . . . . .  | viii |
| Executive Summary . . . . . | xi   |
| Glossary of Terms . . . . . | xiii |

## **Chapter 1: Perceptions about urban nature conservation . . . . . 1**

|  |    |
|--|----|
| 1.1 Professions and urban nature conservation . . . . .        | 1  |
| 1.2 Developers and urban nature conservation . . . . .         | 4  |
| 1.3 The general public and urban nature conservation . . . . . | 6  |
| 1.4 Big companies and urban nature conservation . . . . .      | 8  |
| 1.5 Constraints in general . . . . .                           | 8  |
| 1.6 Progress in general . . . . .                              | 9  |
| 1.7 The way forward . . . . .                                  | 10 |

## **Chapter 2: Functions of urban green areas and how we can add value . . . 13**

|   |    |
|---|----|
| 2.1 Functions of urban green areas . . . . .                        | 13 |
| 2.2 How we should contribute . . . . .                              | 18 |
| 2.3 How do I participate in nature-orientated activities? . . . . . | 21 |

## **Chapter 3: Residents and urban nature . . . . . 27**

|  |    |
|--|----|
| 3.1 Urban nature in our gardens . . . . .                          | 27 |
| 3.2 How nature works . . . . .                                     | 35 |
| 3.3 How humans work . . . . .                                      | 36 |
| 3.4 How it can work in your garden . . . . .                       | 36 |
| 3.5 Your lifestyle and urban nature . . . . .                      | 38 |
| 3.6 Birdlife in your garden . . . . .                              | 39 |
| 3.7 How you communicate on urban nature conservation . . . . .     | 41 |
| 3.8 How does the resident fit into the urban environment . . . . . | 41 |

## **Chapter 4: Wildlife management in a city or town . . . . . 45**

|   |    |
|---|----|
| 4.1 Birds in general . . . . .                          | 45 |
| 4.2 Birdwatching, bird hides and construction . . . . . | 47 |
| 4.3 Attracting birds . . . . .                          | 50 |
| 4.4 Bird feeding . . . . .                              | 50 |
| 4.5 More on birdwatching . . . . .                      | 51 |
| 4.6 Mammals . . . . .                                   | 65 |
| 4.7 Reptiles . . . . .                                  | 69 |
| 4.8 General . . . . .                                   | 70 |

|  |            |
|--|------------|
| <b>Chapter 5: Red data species</b> . . . . .   | <b>71</b>  |
| 5.1 What is a threatened species? . . . . .  | 71         |
| 5.2 What is a protected species? . . . . .   | 73         |
| 5.3 Which species are most prone to extinction? . . . . .                              | 73         |
| 5.4 Criteria for determining threatened species. . . . .                               | 75         |
| 5.5 Informing conservation planning. . . . .   | 80         |
| 5.6 Guiding actions for conservation of species . . . . .                              | 80         |
| <b>Chapter 6: Open space: roles and responsibilities</b> . . . . .                     | <b>83</b>  |
| 6.1 Introduction . . . . .   | 83         |
| 6.2 Need for open space . . . . .  | 84         |
| 6.3 Open space issues . . . . .  | 84         |
| 6.4 Open space principals . . . . .  | 89         |
| 6.5 Open space network . . . . .   | 90         |
| 6.6 Open space categorisation . . . . .  | 91         |
| 6.7 Green nodes. . . . .   | 94         |
| 6.8 Green ways . . . . .   | 95         |
| 6.9 Blue nodes. . . . .  | 97         |
| 6.10 Blue ways . . . . .   | 99         |
| 6.11 Brown nodes . . . . .   | 102        |
| 6.12 Brown ways. . . . .   | 104        |
| 6.13 Grey nodes. . . . .   | 106        |
| 6.14 Grey ways . . . . .   | 107        |
| 6.15 Red ways. . . . .   | 108        |
| 6.16 Red nodes . . . . .   | 109        |
| 6.17 Open space policies . . . . .   | 111        |
| 6.18 Open space management and responsible agents . . . . .                            | 114        |
| 6.19 Alternative service delivery strategy. . . . .                                    | 115        |
| <b>Chapter 7: Understanding biodiversity management in the urban context</b> . . . . . | <b>117</b> |
| 7.1 Ecosystem services . . . . .   | 117        |
| 7.2 The big five human threats to the environment. . . . .                             | 119        |
| 7.3 Evaluation of an urban nature area . . . . .                                       | 124        |
| 7.4 Ecological management plan . . . . .   | 130        |
| 7.5 A rapid response assessment . . . . .  | 131        |
| 7.6 Ecosystem restoration . . . . .  | 133        |
| 7.7 Action plans. . . . .  | 137        |
| <b>Chapter 8: Alien invasive plants.</b> . . . . .                                     | <b>143</b> |
| 8.1 Introduction . . . . .   | 143        |
| 8.2 Why people imported these plants . . . . .   | 143        |
| 8.3 Why invader plants are so successful . . . . .                                     | 144        |
| 8.4 Control of invader plant species . . . . .   | 145        |
| 8.5 How to help control invader plant species . . . . .                                | 148        |
| 8.6 South Africa's legislation on alien invasive plants . . . . .                      | 148        |
| 8.7 Bush encroachment . . . . .  | 156        |

|  |            |
|--|------------|
| <b>Chapter 9: Wetlands and watercourses within an urban environment (blue nodes and blue ways) . . . . .</b> | <b>159</b> |
| 9.1 Wetlands . . . . .   | 159        |
| 9.2 Watercourses . . . . .   | 179        |
| 9.3 Buffer zones. . . . .  | 190        |
| <b>Chapter 10: Mountains and ridges . . . . .</b>  | <b>195</b> |
| 10.1 Mountains . . . . .   | 195        |
| 10.2 Ridges . . . . .  | 206        |
| <b>Chapter 11: The industrial and technological impact on urban nature . . . .</b>                           | <b>213</b> |
| 11.1 Impacts on urban nature . . . . .   | 213        |
| 11.2 Storm water pollution . . . . .   | 221        |
| <b>Chapter 12: Environmental Impact Assessments (EIAs). . . . .</b>  | <b>243</b> |
| 12.1 Purpose of the EIA process. . . . .   | 243        |
| 12.2 Biodiversity and the EIA process. . . . .   | 244        |
| 12.3 Grasslands and the EIA process . . . . .  | 248        |
| 12.4 Wetlands and the EIA process . . . . .  | 252        |
| 12.5 Considering coastal areas in the EIA process . . . . .  | 254        |
| <b>Chapter 13: Sustainable utilisation of urban nature areas (focus on visitors). . . . .</b>                | <b>261</b> |
| 13.1 Sustainable use of nature and ecosystems . . . . .  | 261        |
| 13.2 Carrying capacity . . . . .   | 263        |
| 13.3 Visitors to urban nature areas and visitor activities . . . . .   | 271        |
| <b>Chapter 14: The academic approach to urban nature conservation . . . . .</b>                              | <b>277</b> |
| 14.1 Setting conservation priorities. . . . .  | 277        |
| 14.2 Strategic approaches for nature conservation . . . . .  | 278        |
| 14.3 Directions for future conservation strategies . . . . .   | 279        |
| 14.4 Identifying existing urban sites of value . . . . .   | 280        |
| 14.5 The role of corridors in species dispersal . . . . .  | 282        |
| 14.6 Ecological restoration and habitat creation. . . . .  | 285        |
| 14.7 Ethical and conceptual challenges of restoration ecology . . . . .                                      | 287        |
| 14.8 Conclusions . . . . .   | 293        |
| <b>Chapter 15: Friends groups . . . . .</b>  | <b>299</b> |
| 15.1 Friends of nature. . . . .  | 299        |
| 15.2 About WESSA . . . . .   | 301        |
| 15.3 Friends groups in South Africa . . . . .  | 302        |
| <b>Chapter 16: Future approach to urban nature conservation. . . . .</b>                                     | <b>307</b> |
| 16.1 Key concepts in biodiversity management . . . . .   | 307        |
| 16.2 Climate change and biodiversity . . . . .   | 309        |

|   |   |            |
|---|---|------------|
| 16.3  | Threats to biodiversity . . . . .   | 310        |
| 16.4  | Guideline policy for biodiversity protection in an urban environment. . . . .             | 310        |
| <b>Chapter 17: Investing in ecological infrastructure . . . . .</b> |   | <b>315</b> |
| 17.1  | The evolution of the approach to invest in ecological infrastructure . . . . .            | 315        |
| 17.2  | What is meant by ecological infrastructure? . . . . .                                     | 316        |
| 17.3  | Role players in investing in ecological infrastructure . . . . .                          | 320        |
| 17.4  | Conserving biodiversity . . . . .   | 321        |
| 17.5  | Guideline examples for investing in ecological infrastructure. . . . .                    | 321        |
| <b>Chapter 18: Thierry Revert's Story . . . . .</b>                 |   | <b>323</b> |
| 18.1  | The contents of the agenda 21 document that can be downloaded from the internet . . . . . | 325        |
| <b>Chapter 19: Literature . . . . .</b>                             |   | <b>329</b> |
| 19.1  | Books . . . . .   | 329        |
| 19.2  | Electronic sources. . . . .   | 332        |
| 19.3  | E-mail. . . . .   | 333        |
| 19.4  | Journals. . . . .   | 333        |
| 19.5  | Papers read at conferences . . . . .  | 335        |
| 19.6  | Research projects . . . . .   | 335        |
| 19.7  | Statutes and legislation . . . . .  | 340        |
| 19.8  | Theses and dissertations . . . . .  | 340        |
| 19.9  | Websites . . . . .  | 341        |
| <b>Chapter 20: Addenda . . . . .</b>                                |   | <b>343</b> |
| 20.1  | Addendum A (owl boxes). . . . .   | 343        |
| 20.2  | Addendum B (bird feeders) . . . . .   | 347        |
| 20.3  | Addendum C (earthworms) . . . . .   | 351        |
| 20.4  | Addendum D (organic compost) . . . . .  | 361        |
| 20.5  | Addendum E (honeybees) . . . . .  | 372        |
| 20.6  | Addendum F (evaluation of an urban nature area) . . . . .                                 | 375        |
| 20.7  | Addendum G (template for an ecological management plan). . . . .                          | 377        |
| 20.8  | Addendum H: Indicative lists (sustainable utilisation criteria). . . . .                  | 392        |
| Chapter 21: List of abbreviations . . . . .                         |   | 395        |
| Index . . . . .   |   | 397        |
